5. Digital Security- Desiree Jones

Council Responsibilities Councils may create a subcommittee to help accomplish digital citizenship responsibilities entirely or in part and may partner with non-profit organizations to assist in the education components. It is the responsibility of the council to see that the following is completed each year:

- Receive the report from the district and school administration (as described above).
- Discuss the report and decide: 1. If the filtering, management systems, and supervision practices are appropriate. If not, identify what needs to be addressed in context with administrative capabilities what the school and district are capable of providing under the current filtering and management systems, supervision availability, and financial restrictions. Establish an action plan to address identified concerns.
- 2. If student education currently implemented is appropriate and adequate. If not, identify how it could be strengthened, set goals to improve the education and create an action plan to accomplish the goals.
- 3. If the parent/guardian education component currently implemented is appropriate and adequate. If not, identify how it could be strengthened, set goals to improve the education component and create an action plan to accomplish the goals.

6. Other School Community Council Business.
7. Close School Community Council Meeting.
